RIB BOAT

Brand: Tiger Marine

Model: DM650 Dive Master

Tiger Marine introduces the Dive Master, a deep V RIB for Military and commercial use. Heavy duty GRP hull and deck with its Air/foam tube gives the best for both worlds, the high buoyancy for the air , rigidity and protection.

Depending on your needs, the boats can be totally customized from a simple deck plan for diving or rescue application up to a sophisticated military petrol boat.

With wide range of console, seats and accessories you can make the boat that matches your needs.

Tiger Marine Dive Master Rigid Inflatable boats are available in robust GRP constructed designs and can be designed transportable by both fixed and rotary-wing airlift. Different type of fabrics are available for each model form simple PVC coated fabrics up to heavy duty CSM (Hypalon /Neoprene) 1100 Dtex, 1670 Dtex and 1880 Dtex fabrics for a hard military use.

Dive Master has many unique handling and performance characteristics, which make it the craft-of-choice for many varied mission profiles. Compared to a standard, hard- sided boat of the same length and power, Dive Master generally lighter in weight and has a lower center-of-gravity

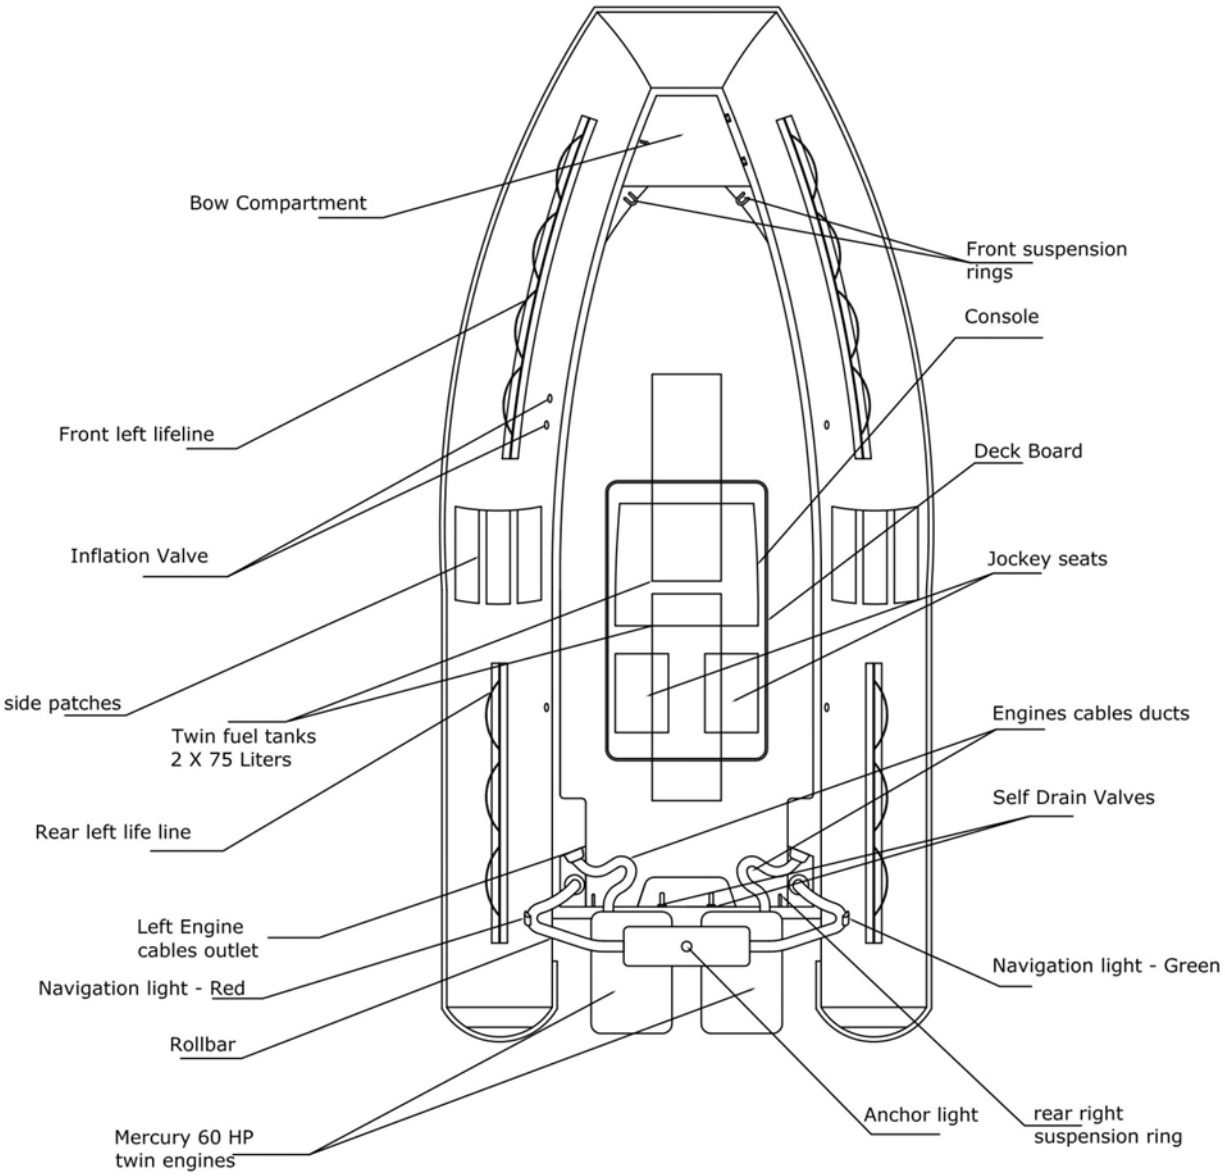

Physical Characteristics

GENERAL	
Hull	GRP
Superstructure	GRP
Collar	Hypalon 1670 Dtex
Classification	Category C
DIMENSIONS	
Overall Length	6.50m
Overall Width	2.60m
Buoyancy Tubes Diameter	56cm
Inside Length	4.90m
Inside Width	1.45m
Carrying Capacity	12 Persons
Total Weight (Empty Boat)	550kg
Displacement (Maximum Pay load)	1500kg
Number of Airtight Chambers	6
Fuel Capacity	150 L
Recommended Power (HP)	85hp
Propulsion	Outboard / Inboard
Maximum Power (HP)	120hp
Motor Shaft Type	Long Shaft
Maximum Recommended Load	1200kg
ELECTICAL	
Power Supply	12v
