- Second stage with metal ring and PU soft cover
- Color: Silver/Black, Silver/N.Yellow, Golden/Black, Blue/Black, Red/Black

P/N: RG-SET-4

AROPEC REGULATOR

1st Stage:

- A balanced diaphragm design means that the first stage delivers a consistent pressure regardless of cylinder pressure or depth.
- The 4 LP ports are built into a rotating turret to offer optimal hose routing
- 2 HP ports allow for a transmitter as well as an analog back up pressure gauge.
- Available with either yoke connector or 300b DIN connector.

2nd Stage:

- The pneumatically-balanced 2nd stage provides the superior breathing performance
- The Inhalation Control Knob adjusts the inhalation effort. The diver is able to adjust the regulator to a variety of environmental conditions
- An integrated venturi lever allows the diver to turn off the venturi when the regulator is out of the mouth.
- The silicone front cover allows for easy purging, even while wearing thick gloves A dual-material mouthpiece provides durable bite tabs and soft silicone against the gums
